### Nature & Nostalgia

These are the subjects that I am, pardon the pun, drawn to. I am a hyper-realistic artist and the "devil is in the details" the more details, the better. The medium of colored pencil affords me the ability to hone in on that aspect.

Nature has so many nuances that detail is imperative to capturing the essence of a living being, whether it is flower or animal.

Nostalgia also lends its self well to detail. The more detail, the more the image will come alive for the viewer evoking their own memories attached to that particular object in the drawing.

## Demonstrator

### "Colored Pencil as a Fine Art Medium"

*Colored Pencils are More than Just Crayons for Adults*

In the first half of the demonstration I cover my process from sketch to board to completion. I start with the tools & materials I use in a typical project along with what is also used by other color pencil artists. I follow with the setup of the drawing board and move onto what goes into adding, layering and mixing color to achieve deep rich color and detail. In the second half of the demonstration I will have a hands on workshop where the audience will have a chance to try different colored pencil techniques.
